ARE YOU LOOKING for a way to show gratitude to your pet for its love, companionship, and devotion? **Learn Reiki!**

Reiki is an ancient, hands-on healing technique suitable for all living things.

Adopting an animal in need is a beautiful experience for both the guardian and the animal. Many animals come from former situations of abuse, neglect, abandonment, and separation. Practicing Reiki on your companion animals can be a priceless gift of love.

On a physical level, Reiki can bring relaxation to stressed muscles, decrease pain, accelerate the healing of bones and wounds, diminish the tissue involvement of burns and bruises, and much more. On a mental and emotional level, anxiety is reduced, a sense of well-being is increased, and deeper levels of relaxation are achieved. It is at these deeper levels where rebalancing of energies occurs and the body's natural healing abilities are enhanced.

Reiki is considered a complimentary therapy and should be used in conjunction with—not as a substitute for—traditional medical treatment for your companion animal. Many health professionals are effectively incorporating the use of Reiki into their individual practices.
